

Membership Opportunity with DORRS Data LLC

September 2025

INFO@DORRS.IO

WWW.DORRS.IO

DORRS MEMBERSHIP OPEN TO INDUSTRY MARKET PARTICIPANTS

Member benefits include:

DORRS members will collaborate to set industry standards addressing Interoperability challenges concerning private and digital securities and real world assets (RWA) across various market centers, custodians, issuance firms and transfer agents.

Members will lead the standardization initiatives focused on simplifying the utilization of reference and market data generated by DORRS for these security types. DORRS aims to provide industry participants with streamlined access to reference security information, pricing, and reporting services for private securities and digital assets.

MEMBER BRANDED PRICING AND REFERENCE DATA

DORRS Membership will brand and distribute your market center's pricing feed effectively and stand out from competitors in the industry:

Unique Value Proposition (UVP):

- Define what makes your pricing feed unique, such as data accuracy, coverage, latency, or specialized segments.

Distinctive Participant ID, Name and Logo:

- All data will identify your name and logo that align with your companies brand.

Market Segment Focus:

- Tailor your market center to specific segments using DORRS User Data Portal and APIs for distribution, addressing customer unique interests.

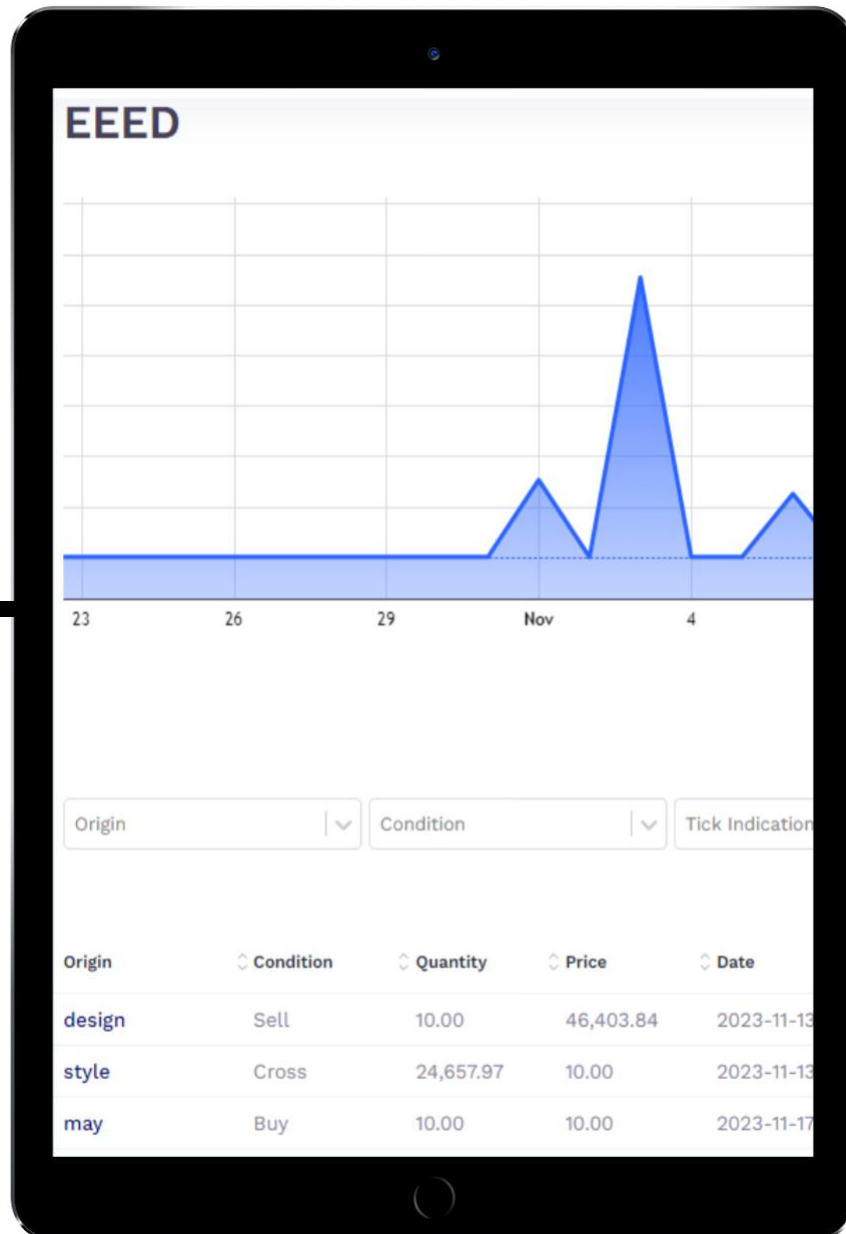

DORRS PRODUCTS

Registry

Unique Digital Security Identifier Numbers (DSIN) linked to financial instruments information.

Last Sale

The price, size, timestamp, and the Market Participant ID with a provided Tick indicator.

Best Bid Best Ask

Aggregate current highest bid and lowest offer and the shares available at those prices.

Depth of Book

A real-time view of an Alternative Trading System order book for a particular security.

DORRS PRODUCTS

DORRS Asset Profiles

- Standardized digital records for companies, securities, and offerings.
- Include details such as:
 - Issuer/company information
 - Series/offering structures
 - Security type (equity, debt, digital asset security, tokenized instrument)
 - Regulatory identifiers
- Profiles link securities to directories, participants, and symbol listings.
- Designed to support market data transparency, regulatory compliance, and investor due diligence.
- Continuously updated as issuers or assets evolve.

DORRS Network Asset Profiles

- Provide metadata on assets issued & trading on blockchain protocols connected to DORRS.
- Capture key information for each supported network:
 - Name of protocol (Ethereum, Algorand, Polygon, Avalanche, Solana, Tezos, etc.)
- Track DORRS-operated oracles that move off-chain registry data **on-chain and on-chain data back off-chain**.
